

DeltaSol

**High purity
nutrients and
formulated
water soluble
fertilizers for
precision
feeding**

Water Soluble Salts

- Water soluble fertilizers that serve various degree to system automation and growing conditions.
- Urea, Chlorine and Sodium free (for foliar application specially designed formulas with Urea)
- Rapid and complete solubility
- Homogeneous ready-to-use products
- Highest quality of raw materials: no impurities
- Excellent storageability

DeltaSol-standard - Binary salts for all Fertigation technologies (drip, centre pivot, sprinklers, furrow...) and foliar application

Free of contaminants such as heavy metals or perchlorate.

Complete range with highest possible analysis.

- Potassium Nitrate
- Calcium Nitrate (with TE and Polyaspartic acid for enhanced nutrient uptake by natural chelating effect and biostimulant action)
- MAP
- MKP
- SOP

DeltaSol-special - NPK water Soluble salts for all Fertigation technologies (drip, centre pivot, sprinklers, furrow...) and foliar application.

Highest Quality

- With magnesium, chelated trace elements.
- Purest raw materials and fully soluble.
- Free flow and excellent storage-ability.
- Complete range.
 - 20-5-10 + MgO + TE
 - 13-40-13 + MgO + TE
 - 7-12-40 + MgO + TE
 - 15-10-15 + MgO + TE
 - 15-5-30 + MgO + TE
 - 18-18-18 + MgO + TE
 - 25-10-17 + MgO + TE
 - Many more
